OLANA NORMAN PHOTOGRAPHY

2007 WEDDING PORTRAIT COLLECTIONS

Art Leather Album - No other album can take your portraits to a higher level. Art leather still takes the time to custom make wedding albums by hand. Thirty-eight craftsmen work on each and every album paying meticulous attention to detail. The corners are turned by hand and the cover is hand-cleaned and polished every step of the way. Each album is unique as it is custom designed by Olana to show your unique personality. Your names and the date of your wedding are embossed on the front cover. Each side of the album will accommodate one 8x10, two 5x7's or four 4x5 portraits and will begin with a custom personalized cover introductory sheet. Olana carefully selects the best mats for your album layout and accents some pages with foil paper edges or a unique gold embossed stamp. Finally, each finished album is hand-wrapped and attractively boxed, to ensure your memories are safe.

Wall Portraits - Nothing displays the beauty of your wedding day more than a wall portrait in your home. Each portrait is custom cropped to your specifications, dry mounted on masonite board, minor retouching performed, sealed in lacquer and is ready for framing. See the studio for examples of sizes and available frames.

The Formal Portrait Session - The main part of your wedding portraiture will be photographed at the studio, outdoor portrait park or at another pre-selected location. The wedding couple, wedding party and the parents/grandparents are photographed at this time. The number of previews available from the formal session will vary depending on the size of wedding party and the number of people involved. Your Formal Wedding Session is included in each package, but you can also customize your wedding dream day by adding one or more of the following sessions if they aren't already included in your chosen package.

The Engagement Session - This session may be photographed at the studio or as an environmental session. This is a wonderful way to capture your natural personalities in a comfortable setting. Many couples select a location with significance and include items that have special meaning to them. The options for this session are endless and is limited only to the imagination.

The Pre-Bridal Session - This Portrait session of the bride in her gown is usually taken 3 - 4 weeks prior to the wedding date. It will give you many more cherished memories of your gown in exciting and beautiful poses without the time constraints of a busy wedding day. Our brides always thank us for offering Pre-Bridal session, as this is where the fantasy wedding images are created. The Pre-Bridal is dedicated to capturing the beauty of both the bride and the wedding gown and is a 'must have session' for your elaborate wedding gown.

The Ceremony Session - The aisle, the rings, the guests, the church and the wedding kiss - it all goes so fast. These are memories of your ceremony that you can view throughout your lives together.

Pre-Ceremony - Consider your entire wedding day... from makeup and hair, to the final minutes prior to the ceremony - let us capture it all. These treasured moments are often forgotten as the wedding day fades into memory. This session allows you to preserve your poise and grace, as you get ready to be joined in marriage with your true love.

Terms and Conditions - Wedding packages may be altered, as well as the replacement of Art Leather Folios with portraits. Additions to collections are accepted. GST will be added to the package price. Digital files may be purchased with Packages B,C,D,E . We will be happy to answer any of your questions so please contact the studio if you require more information.
